October 19 - 26, 2013

Bonaire is a little boomeranged shaped Island located 10 degrees above the equator, 50 miles off the coast of Venezuela. So, warm breezy days & nights, no tidal changes and no current! Roll aboard their accessible dive boat, make an easy transfer to the swim step, or transfer with assistance if necessary, and roll

into clear 85-degree water. The reefs of Bonaire are protected by both man and nature, so you can expect the best and you won't be disappointed.

The Flamingo Beach Resort is *ACCESSIBLE* with roll-in showers, in fact the entire Resort is accessible and so is the little town of Kralendijk, making it a true Vacation! It's an easy 'WALK & ROLL' into town along the beautiful Caribbean Sea, with really friendly people and fantastic restaurants!
